

HERE ARE SOME OF OUR STORIES.

“Without Freedom House I wouldn’t be alive today. Freedom House taught me that I can live without drugs and alcohol, and be a productive member of society. I learned that doing things my way, on my terms, wasn’t working, that sometimes I need to just keep quiet and listen.”

— Chris H.

“Freedom House broke the bondage of addiction and gave me the freedom to develop a productive life in recovery. They gave me a foundation of people who mentored me professionally and personally that allowed me to experience a life beyond my wildest dreams. I never thought these friendships would last for 30 years. I am definitely a blessed man.”

— Frank L.

BIG NUMBERS, HEROIC MILESTONES

Over 4,000 clients served to date
26,000+ bed days provided annually
Over 400 children reunited with their mothers

“Without Freedom House I would not be where I am today. Through their treatment program, and their help with finding a job, providing transportation, and addressing my medical and legal problems, I was able to get my life back after years of living in active addiction.”

— Peter T.

“My 9 month stay at Freedom House gave me the tools to handle the ups and downs of life. I now have 29 years of continuous sobriety thanks to Freedom House.”

— Jim M.

“Freedom house helped get me sober, and they gave me the environment, tools and knowledge to stay sober. What one does with that opportunity is up to them! Laugh, love, LIVE!”

— Drew C.

OUR MISSION

Through recovery oriented services, Freedom House empowers individuals with substance use and co-occurring disorders to live a healthy and independent lifestyle.

“ Saving Lives and Reuniting Families”

FREEDOM HOUSE CAN BE THERE AT EVERY STEP OF YOUR JOURNEY TO SOBRIETY AND RECOVERY, FROM LONG-TERM RESIDENTIAL TREATMENT IN A HALFWAY HOUSE SETTING, TO OUTPATIENT SERVICES, TO RECOVERY HOUSING PROGRAMS .

WHO WE ARE

Freedom House, founded in 1986, provides a full spectrum of addiction services to adult men and women suffering from substance use and co-occurring disorders. Our continuum of care and longevity in the community reinforces our commitment to "Saving Lives and Reuniting Families."

Wherever there is a problem like that which we New Jerseyans face with drugs and alcohol, there is room for help. Thankfully, there are many dedicated people helping those suffering substance use and co-occurring disorders. However, we need to band together and expand our networks. Freedom House has the dedicated professional staff and expertise... but we cannot do it alone.

OUR COMMITMENT TO THE FUTURE

As long as there is a life to save and a family to reunite, Freedom House will keep our doors and minds open, our staff engaged and our mission alive. We have too many success stories over 35 years to stop now. Our commitment to the future remains firm. We are proving it with such initiatives as the recent addition of Medication Assisted Treatment (MAT).
