

"Saving Lives and Reuniting Families"

Valerie

Being a mother of a graduate from Freedom House, I hold Freedom House close to my heart and will be forever grateful for their continued dedication to "Saving Lives and Reuniting Families."

My son who fell to the lowest of addiction, was able to rebuild his life with the assistance of devoted counselors and the support of the Freedom House family.

They renewed faith in believing in himself, opened doors and gave life to what once seemed impossible.

It didn't come easy and was hard work for my son who diligently worked at being a new person.

With counseling tools provided, the Freedom House program enabled a new path and understanding of what addiction was and how to move forward.

It also reunited a splintered family which bonded and rebuilt new paths.

Today, my son has a beautiful family and has completed education which allows him to give back to his community as a drug and alcohol counselor.

I'm filled with much gratitude for Without Freedom House in our lives, there would be no life.

To continued success!

My Regards

Valerie T
